MAILING BAGS

Mailing bags are essential packaging solutions designed for e-commerce, retail, and logistics. They are lightweight, durable, and cost-effective, providing excellent protection for goods during shipping. These bags come in various sizes, materials, and designs, making them suitable for different industries and purposes.

Features:

- **Raw Material:** LDPE or MDPE.
- **Micron (one layer thickness):** 40-100 μ microns
- **Printing:** We can print any design you request on the mailing bags.
- **Sustainability:** Optional biodegradable and recyclable materials can be used.
- **Lid Details:** Permanent and resealable tapes can be produced, either as double or single tapes with perforations.

PATCH HANDLE MAILING BAGS

Patch handle mailing bags are a robust and stylish packaging solution, featuring reinforced handles for easy carrying. These bags are ideal for businesses that require a practical yet professional packaging option, suitable for retail, e-commerce, and promotional purposes.

KORENSA
We can supply whatever you want

Features:

- **Raw Material:** LDPE or MDPE.
- **Micron (one layer thickness):** 40-100 μ microns

SUSTAINABILITY

At Korensa Plastic, we prioritize environmental responsibility in every step of our production process. While manufacturing high-quality mailing bags, we ensure minimal environmental impact through:

Recyclable Materials:

We can supply whatever you want

We produce our products using recyclable raw materials, if requested.

Efficient Production:

We use advanced technologies that minimize energy consumption and reduce carbon emissions during manufacturing.

Waste Management:

We recycle plastic waste generated as production surplus or scrap, reusing it in the production process. This significantly reduces resource usage and contributes to sustainability.

WHY CHOOSE US?

- **Custom Designs:** Tailored to meet your brand's specific needs.
- **High-Quality Raw Materials:** Ensuring durability and customer satisfaction.
- **Sustainable Practices:** Offering eco-friendly solutions to reduce environmental impact.
- **Global Reach:** Reliable export services to various markets worldwide.
- **Experience:** With 35 years of production expertise and 23 years of export experience, we are committed to delivering high-quality products.
