# ZIPLLOCK AND SLIDER BAGS

[www.korensa.com](http://www.korensa.com)

# ZIPLOCK BAGS

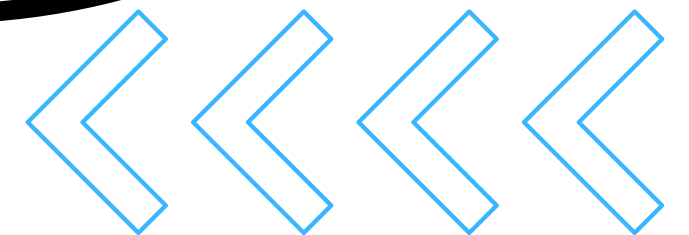

Our Ziplock use virgin LDPE and MDPE to ensure high quality. You can choose between printed and unprinted resealable bags. Additionally, our ziplock bags feature a user-friendly design that allows for easy opening and closing.

## Features:

- **Raw Material:** LDPE or MDPE.
- **Micron (one layer thickness):** 40-50  $\mu$  microns.
- **Printing:** Only Two colours printing is available.
- **Lid Details:** The ziplock bags can be produced with or without a red stripe on the seal (lid).
- **Stripe:** A white stripe can be added upon request.

KORENSA  
We can supply whatever you want

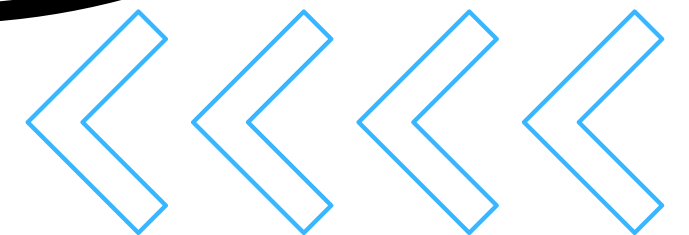

# PLASTIC SLIDER BAGS

Our plastic slider bags are an ideal solution for packaging and organizing a variety of items. These bags are made from high-quality, durable plastic, providing a secure and airtight seal with their easy-to-use slider mechanism. Perfect for both commercial and personal use, they offer a convenient and reusable storage option.

## Features:

- **Raw Material:** LDPE or MDPE. Virgin or Recycled raw material can be used as requested.
- **Micron (one layer thickness):** 60-100  $\mu$  microns.
- **Printing:** Printing can be done using any graphics and colours as requested.
- **Strength:** Durable and tear-resistant, ensuring safe storage of items.
- **Closure:** Convenient and secure slider closure for repeated use.

# SUSTAINABILITY

At Korensa Plastic, we prioritize environmental responsibility in every step of our production process. While manufacturing high-quality ziplock and plastic slider bags, we ensure minimal environmental impact through:

## **Recyclable Materials:**

We can supply whatever you want

We produce our products using recyclable raw materials, if requested.

## **Efficient Production:**

We use advanced technologies that minimize energy consumption and reduce carbon emissions during manufacturing.

## **Waste Management:**

We recycle plastic waste generated as production surplus or scrap, reusing it in the production process. This significantly reduces resource usage and contributes to sustainability.

# WHY CHOOSE US?

- **Custom Designs:** Tailored to meet your brand's specific needs.
- **High-Quality Raw Materials:** Ensuring durability and customer satisfaction.
- **Sustainable Practices:** Offering eco-friendly solutions to reduce environmental impact.
- **Global Reach:** Reliable export services to various markets worldwide.
- **Experience:** With 35 years of production expertise and 23 years of export experience, we are committed to delivering high-quality products.
